

What Hospitals Receive

Working with Patient+Family Care will be effortless. Once you make the decision to bring this remarkable community to your families, we will work together to bring this program to your unit quickly and easily.

What you will receive:

- Hospital specific access to our acclaimed course that is available only to YOUR families
- Rack cards to distribute to your families to market the course
- Quarterly reports from Patient+Family Care that will share anonymous patient feedback about their experience in your unit in regards to family centered care practices and their perception of family support
- Quarterly reports from Patient+Family care with areas for potential practice improvements in regards to family centered care based on the parents' feedback as they participate in the course
- Quarterly reports from Patient+Family Care with highlights of family centered care practices that seem to be going well in your department based on the parents' feedback as they participate in the course, as well as staff recognition if parents are highlighting exceptional caregivers that go above and beyond in their daily practice
- Exceptional Customer Service!
