

What Hospitals Receive

Working with Patient+Family Care will be effortless. Once you make the decision to bring this remarkable community to your families, we will work together to bring this program to your unit quickly and easily.

What you will receive:

- A co-branded program that is available to your families, 24/7, showing your dedication to their psychosocial well-being
- Rack cards to distribute to your families to market the availability of the course
- Permission to market your partnership with Patient+Family Care
- Unlimited access and permission to use all of Patient+Family Care's original forms, sample policies, parent resources and staff recommended support services
- Bi-annual reports from Patient+Family Care that will share:
 - anonymous patient feedback about their experience in your unit
 - patient perception of your unit's level of family support
 - highlights of family centered care practices within your unit and among different disciplines
 - recommendations for potential practice improvements in regards to family centered care practices based on trends seen in parent comments throughout the community
